About ALON

ALON (Always On) is a personal AI assistant for the entire home-buying journey. Built by TryThat.ai, ALON guides buyers through all 8 stages of property acquisition — from initial search to final possession — acting exclusively in the buyer's interest.

Unlike traditional real estate platforms that serve listings, ALON serves *buyers*. It never shares your contact without permission, provides complete journey support (not just listings), and always works for you — never the builder or agent.

The design language reflects **Trust Architecture** — a visual system built on deep navy foundations and warm terracotta accents that convey institutional reliability with approachable warmth.

Color Palette

The ALON color system is built on the **Trust Architecture** principle — combining deep institutional navy with warm terracotta accents to convey reliability, confidence, and approachable warmth. Colors are organized into semantic groups for consistent application.

Primary Colors

Navy 800
#0D1F4A
Primary background, splash screens, app header, text color. Conveys institutional trust.

Terracotta 500
#D95F2B
Primary CTAs, brand accent, selection states, interactive elements. The action color.

White
#FFFFFF
Screen backgrounds, card surfaces, button text on primary. Clean canvas.

Navy Scale — Institutional Trust

Navy 900	Navy 800	Navy 700	Navy 600	Navy 500
#060F24	#0D1F4A	#142E5C	#1B3D6E	#244D82
Dark backgrounds	Splash screens	Primary text	Deep UI elements	Pills on dark

Terracotta Scale — Warm Action

Terra 600	Terra 500	Terra 400	Terra 300	Terra 200	Terra 100	Terra 50
#B8451E	#D95F2B	#E8774A	#F0A080	#F8D0BC	#FDF0EA	#FEF7F3
Primary CTA	Selection borders	Active states	Brand accent	Secondary CTA bg	Selected pill bg	

Blue Scale — Interactive & Selection

Blue 600	Blue 500	Blue 400	Blue 300	Blue 200	Blue 100	Blue 50
#2146B8	#2952D8	#4A72E8	#7B9BF2	#B3C8F9	#E0EAFF	#F0F5FF
Interactive elements	Links	Trust icons	Selection on blue bg			

Extended Palette

Warm Neutrals — Surface & Structure

Cream	Warm 50	Warm 100	Warm 200	Warm 300	Warm 400	Warm 500	Warm 600	Warm 700	Warm 800

Semantic Color Mapping

TOKEN	VALUE	USAGE
background	#FFFFFF	Default screen background
surface	#F5F0E8	Card backgrounds, elevated surfaces
textPrimary	#0D1F4A	Headings, primary body text
textSecondary	#5C554A	Supporting text, descriptions
textTertiary	#A89E8E	Placeholder text, hints, labels
border	#E0D8CC	Card borders, dividers, input outlines
voiceBg	#0d1117	Voice interaction dark screen
activationGlow	#E8A84C	Warm amber glow for activation pills

Typography

ALON uses two complementary typefaces: **DM Serif Display** for emotional, high-impact text and **DM Sans** for all functional UI. Both are open-source Google Fonts with excellent readability.

DM Serif Display — Wordmarks & Headlines

Used for the ALON wordmark, page titles, and emotional headlines. Conveys elegance and authority.

Serif Large — ALON

DM Serif Display | 32px / 40px | Wordmarks, Hero titles

Serif Medium — Section Headlines

DM Serif Display | 24px / 32px | Section titles, Feature headers

Serif Small — Card Titles

DM Serif Display | 20px / 28px | Card headers, Sub-headings

DM Sans — Functional UI

The workhorse typeface for all body text, buttons, labels, and UI elements. Available in Regular (400), Medium (500), SemiBold (600), and Bold (700).

Heading 1 — Bold, 28px/36px

DM Sans Bold | 28px / 36px | Page titles

Heading 2 — Bold, 22px/28px

DM Sans Bold | 22px / 28px | Section headings

Heading 3 — SemiBold, 18px/24px

DM Sans SemiBold | 18px / 24px | Card titles, Subsection headers

Body — Your personal AI for the entire home-buying journey. ALON guides buyers through all 8 stages.

DM Sans Regular | 16px / 24px | Main body text

Body Medium — Emphasized text within paragraphs for callouts and key information.

DM Sans Medium | 16px / 24px | Emphasized body text

Caption — Supporting text and supplementary information · DM Sans Regular

DM Sans Regular | 14px / 20px | Captions, Help text

Small — Fine print, timestamps, and metadata

DM Sans Regular | 12px / 16px | Fine print, Timestamps

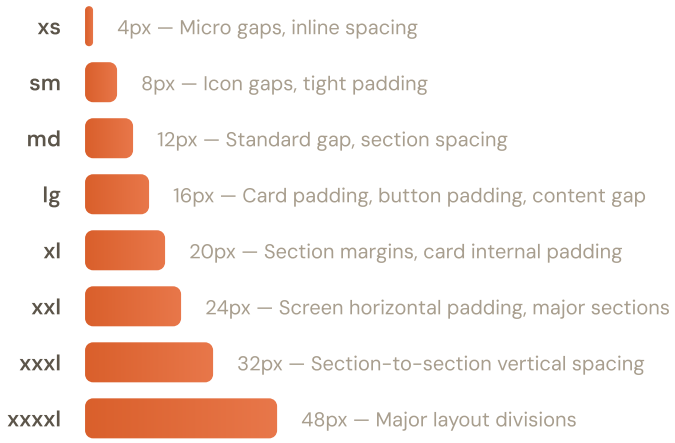
Button Label — Activate ALON →

DM Sans SemiBold | 16px / 20px | Button text, CTA labels

Spacing · Radius · Shadows

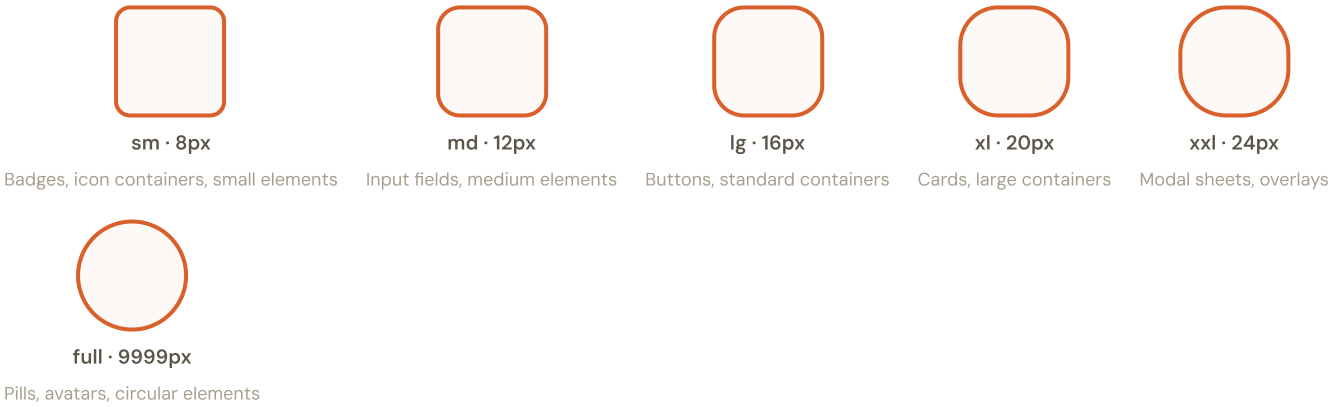
Spacing Scale — 4px Base Grid

All spacing values are multiples of a 4px base unit, ensuring consistent rhythm across the interface.



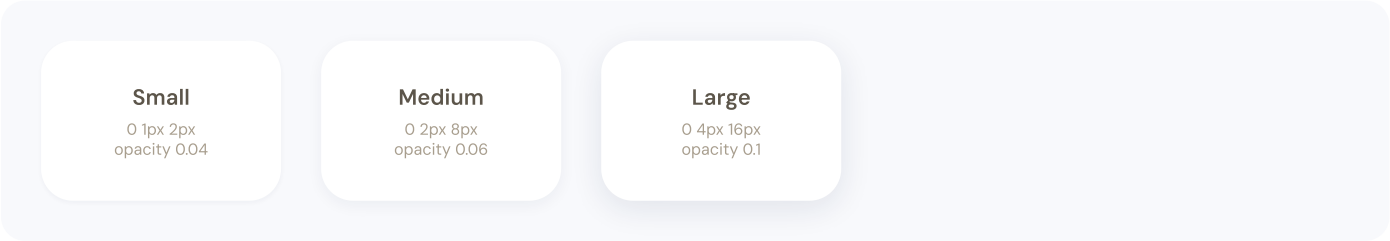
Border Radius

Progressive radius scale from subtle rounding to fully circular elements.



Elevation & Shadows

Navy-tinted shadows provide depth while maintaining the warm, trustworthy aesthetic. Shadow color: **#0D1F4A** (navy).



LEVEL	OFFSET	BLUR	OPACITY	USAGE
Small	0px 1px	2px	0.04	Alert cards, subtle lift
Medium	0px 2px	8px	0.06	Cards, profile sections, chat bubbles

LEVEL	OFFSET	BLUR	OPACITY	USAGE
Large	0px 4px	16px	0.10	Floating elements, overlays, bottom sheets

Buttons & Interactive

Button Variants

One primary action per screen. Secondary and ghost variants provide visual hierarchy.

Activate ALON →

Primary
Background: Terra 500 (#D95F2B)

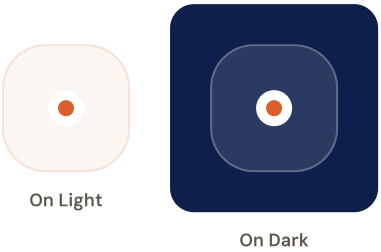
Components & Layout

ALON Avatar — Brand Mark



Specifications

Shape: Rounded square (35% border radius of size)
Eye: White circle (17.5% of size), Terracotta iris (7.5% of size)
On light: bg rgba(217,95,43,0.06), border rgba(217,95,43,0.15)
On dark: bg rgba(255,255,255,0.12), border rgba(255,255,255,0.25)

Animations:
Blink: Every 3.5s — scaleY 0.08 (100ms) → 1 (150ms)
Pulse rings: Scale 0.9→1.1, opacity fade, 2.5s cycle

Component Library

ChatBubble

AI conversation messages with pointer effect

Background: Cream #F5F0E8
Radius: 14px with 4px top-left (pointer)
Padding: 12px × 10px
Shadow: Medium · Entry: FadeUp 8px, 400ms

BottomSheet

Modal sheets for inline editing

Top radius: 20px
Overlay: rgba(0,0,0,0.35)
Handle: 36×4px, radius 2
Close btn: 32×32px circle, Cream bg

ProfileCard

Preference display with editable rows

Radius: 16px · Border: 1px Warm 200
Header: Cream bg, 10px uppercase
Row: 14px × 12px padding
Icons: 16px Terra 500, Lucide stroked

PurposeGrid

2-column selection grid with icons

Columns: 2 (47% each)
Cell: 12px radius, 1.5px border
Icon: 32×32px, 8px radius, Cream bg
Selected: Terra 500 border, Terra 50 bg

PropertyCard

Listing card with image and details

Width: 260px · Radius: 20px
Image: 140px height
Badge (NEW): Terra 500, 8px radius
Shadow: Medium

VoiceOrb

Voice interaction with waveform

Orb: 120×120px · Terra 500 bg
Rings: 2px border, scale 2, 1.5s
Waveform: 5 bars, 4px wide, white
Heights: 6–36px animated

Layout Standards

ELEMENT	VALUE	NOTES
Screen padding	24px horizontal	Applied to all content screens
Top bar height	Safe area + 12px	Flexible, respects device notch
Back button	36×36px circle	Cream bg, Warm 200 border, ChevronLeft icon
Card spacing	12–16px gap	Between cards in lists and grids
Section gap	32px (xxxl)	Between major content sections
Sticky CTA bottom	40px bottom pad	White bg, 1px top border Warm 100

Icons • Animation • Rules

Iconography — Lucide React Native

All icons use the Lucide library (stroke-based). Default stroke width: 1.8. Use 2.0 for emphasis (close, checkmark).

SIZE	USAGE	COMMON ICONS
13-14px	Inline with text, secondary actions	SlidersHorizontal, Mic, Pencil
16px	List row icons, profile fields	MapPin, Building2, Maximize2, Wallet, Target
18-20px	Navigation, top bar actions	ChevronLeft, ChevronRight, X
24px	Alert cards, feature icons	ShieldCheck, Route, UserCheck

Icon container pattern: 32×32px, 7-8px radius, Cream or Terra 100 background, center-aligned.

Animation Specifications

ANIMATION	DURATION	EASING	DETAILS
Screen transition	0.45s	cubic-bezier(0.4,0,0.2,1)	Slide from right
Content entry	0.3-0.4s	ease-out	FadeUp: opacity 0→1, translateY 10→0px
Stagger delay	100-200ms	—	Between sequential elements
Press feedback	0.15s	spring(15, 300)	Scale 1→0.98
Avatar blink	250ms total	ease	Every 3.5s, scaleY close/open
Pulse rings	2.5s cycle	ease-in-out	Scale 0.9→1.1, opacity fade
Status pulse	1.6s cycle	ease-in-out(sin)	Scale 1→1.4 (status dot)
Progress bar	2.5s	cubic-bezier	Width 0→72%

Design Principles

Trust First

Every visual choice reinforces trust and reliability. Navy conveys institutional confidence, terracotta adds warmth.

Flat Over Skeuomorphic

Never heavy shadows. Use subtle elevation with navy-tinted shadows. On blue backgrounds, use border + bg opacity — no shadows.

One CTA Rule

One primary action per screen with solid fill. Secondary actions use outlined or ghost variants for clear hierarchy.

Active = Border + Fill

Selected states always show both border color change AND background fill change. Never just color alone.
